DETAILED ACTION

The following action is in response to the amendment filed for application 10/686,585 on June 21, 2005.

Drawings

The drawings were received on June 21, 2005. These drawings are approved.

Allowable Subject Matter

Claims 2, 4-11, and 13 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the hybrid transmission as claimed, and particularly including a circular drive plate formed near a cylindrical hub portion with a swing permission structure through which an outer rotor shaft is permitted to make a swing about the axially end portion thereof, and including the remaining structure of claim 4. The present invention also particularly includes a diametrically reduced portion at a position between the differential speed change unit and the motor/generator unit, and in which a wiring from the motor/generator unit is exposed to a space between the motor/generator unit and the differential speed change unit and led and exposed to the outside of the housing through an opening formed in the diametrically reduced portion, and including the remaining structures of claims 8 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
